Sajaya Group Profile

Starting as Sajaya Real Estate in 2005, established by Mr. Salem Ali Sultan Hilal Al Saboosi, today Sajaya Real estate is managing more than 20 Residential and Commercial Buildings scattered at premiere locations all over Dubai.

With the continuous growth of Sajaya Real Estate, **Sajaya Fire Protection Systems LLC** was founded in 2007 not only to maintain its own buildings but to offer its services all over Dubai. Today we are handling projects (maintenance and installation) for more than 200 clients in the region.

2011 saw the birth of **Sajaya Facilities Management Services LLC** and today it is providing all the facility management services not only to its own buildings but outside too.

Sajaya Group took a major step in 2011 with starting **Sajaya Contracting LLC**. Starting with a G+1 Commercial building, today Sajaya Contracting is providing its services for all type of Construction work with exceptional quality and within the allocated time frames.

The group now is engaged in Building Construction, Building Maintenance Services, and Electromechanical Installation and Maintenance Services.

Mission

Our mission is to form long-term relationships of value with our clients and partners by providing quality services and employing the best resources and latest techniques.

Vision

Our Vision is to be the leader in the Industry, by creating value, by providing products and services that are recognized by our customers' as key factors in their success.

Commitment

Our commitment is to continually earn our customers' loyalty through exceptional services provided by dedicated employees who are regularly rewarded for their personal and professional growth.

Objectives

Our objective is to provide the highest possible standard of quality and service industry, giving Clients the best satisfaction the Company can offer.

Our Core Values

Professional Excellence

We believe the pursuit of excellence and demonstrated high professional standards are critical to our work. To ensure the best possible service to our community, we support continuous training and encourage professional development.

Integrity

We understand the trust put in us by the public and our colleagues is integral to the performance of our duties. We are committed to honest and ethical behavior and will hold ourselves accountable to these values.

Team Work and Leadership

We know well functioning teams are more effective than individuals working separately; our lives depend on it. We believe individuals have the capacity to lead and our organization values leadership at all levels.

Our Core Values (con't)

Community Service and Involvement

We believe we have a duty to be involved in the community where we work. Our responsibility is to protect life, property, and the environment. We are committed to fulfilling our responsibility and to deepen our involvement in the community we serve.

Innovation

We recognize and understand that the constancy of change in our community and industry impacts our business daily. We are committed to seeking out and implementing innovation and progressive thinking to address change effectively and efficiently, benefiting those we serve.

Health & Safety Security

The manpower of SAJAYA is its most valuable resource. To ensure a safe workplace for our staff and also to protect clients' investment and facilities, we have evolved a strong health and safety culture driven by a goal to achieve "zero accidents" and "zero man-hour lost". The safety culture has been instilled in SAJAYA with the conviction that every accident is preventable. The company fully acknowledges that by complying with stringent Health, Safety and Environment (HSE) procedures, zero accidents can be accomplished.

SOME OF OUR HSE PROCEDURES ARE

- Use of full range of Personnel Protective Equipment (PPE).
- Use of Safe Tools & Equipment
- Trained & Competent Staff
- Regular On-Site Safety Audits

Management Profile

Buti Salem Ali Sultan Al Subosi President

He is a resident of U.A.E. and has his businesses since 10 years. Main activities include real estate and development, property transfer, facilities management, and building contracting businesses. He has vast experience of Dubai business environment. His contribution to the growth of property transfer and real estate market in Dubai is noteworthy.

Management Profile

Engr. Samih Slibi Managing Director

He has more than 25 years of experience in managing and executing projects in the building field. He holds Post Graduate Diploma in Management & a Bachelor Degree in Civil Engineering from University of Damascus, Syria. He has been in U.A.E for over 15 years and he is expert in developing a project plan. He is a strategic planner & motivational manager. He has proven ability to manage, coordinate and supervise project staff. He ensures that all projects are completed on time so that there is no wastage for the clients in all aspects. He coordinates with the consultants for smooth performance. He has excellent organizational skills with the ability to work well as a team member or to work independently.

Sajaya Fire Protection Systems Profile

Established in Dubai and registered in "Mohammed Bin Rashid EST. For Young business Leaders" Member ship No (1553), **SAJAYA Fire Protection Systems** operates as electromechanical contractor in Fire Alarm & Fire Fighting System. We offer total solution in fire detection, fire alarm and fire extinguishing systems for the protection of entire range of industries and applications such as - Commercial buildings, Residential complexes, Offices, warehouses, Restaurants, Factories, Shopping centers, Shops and Showrooms. Our projects are scattered in the Emirates of Dubai.

We perform the execution and maintenance of Fire Alarm, Firefighting and Emergency Lighting Systems by specialized engineers and technicians.

We are supplying and installing all types of Fire Alarm & Fire Fighting systems including Fire alarm control panels, Fire Hose reels, sprinklers, Emergency lights etc. The products we supply are U.K manufactured, Testified by Civil Defense and guaranteed for one year. Our jobs are completed with consultant's certification to finesse engineering standards.

We work as an integrated solution provider seeking the best solution for our clients and meet their requirements with the latest technology, high quality, reliability and cost effective solution.

Our staff comprises of professional engineers and technicians who are well qualified and specialized in their respective fields, authorized after Civil Defense approval and work in harmony with other companies appointed by Civil Defense. Most importantly, our staff functions like a family with the least loss of manpower, thereby keeping overhead cost a minimum. They make optimum allocation of resources and ensure the services offered by us exceed the expectations of the clients. With their meticulous efforts, we have been able to make a name for ourselves.

Customer satisfaction is our ultimate goal and treats our customer's needs as our value. With the co-operation of the clients, overseas principals and the government authorities, SAJAYA Fire Protection System is looking forward for further growth and progress to be among the best in the field of Fire Protection system.

List of Activities

Install, Commission And Repair/Maintain The Following Systems & Equipments:

Fire Detection & Alarm System

Fire Detection system is the system which detects any fire situation and the alarm system warns the people around through visual or audio system about it. Both of these systems work simultaneously.

We perform installation of new fire detection and alarm systems and service of existing ones, regardless of manufacturer and original installer.

Whether you have a conventional or Addressable system, our engineers will be able to carry out repairs or maintenance in the most proficient way.

Fire alarms systems should be fully serviced at least every three months, and any emergency Call-Outs should be responded within 12 hours.

Fire Alarm Components

1. Fire Alarm Control Panel
2. Smoke Detectors
3. Heat Detector
4. Manual Call Point
5. Sounders
6. Voice Evacuation Control Panel
7. Speakers
8. Interface Modules

Fire Fighting System

Firefighting is the reaction to a fire incident. It comprises of equipment used to stop the fire from spreading and extinguishing it.

We at Sajaya, perform both the installation and maintenance of the firefighting system keeping in mind the importance of it at the emergency situations.

Our Technical team visits and services the firefighting system every three months and attends any complaints within 12 hours.

Fire Fighting Component

1. Fire Extinguishers:
2. Fire Hose Reels:
3. Wet And Dry Risers:
4. Breeching Inlet & Landing Valve.
5. Sprinkler System
6. Fire Suppression System
7. Pre Action & Deluge System

Fire Pumps Set

A fire pump is a part of a firefighting system water supply and can be powered by electric, diesel or steam. The pump provides water flow at a higher pressure to the sprinkler system risers and hose standpipes

We Install and maintain all types of fire Pumps (as per NFPA and civil defense standards) regardless of type (split case, Vertical Turbine etc) and standard (Non- UL, UL Approved, FM Approved etc)

Emergency Lighting System

An emergency light is a battery-backed lighting device that comes on automatically when a building experiences a power outage.

In case of fire, most of the times, the electricity trips, or intentionally tripped down to avoid from greater damage. In circumstances like that, we do need emergency lighting system both in corridors and especially at exits.

We perform both installation and maintenance of all types of Emergency and Exit Lights, whether monitored or non-monitored and whether Central or self-contained battery system.

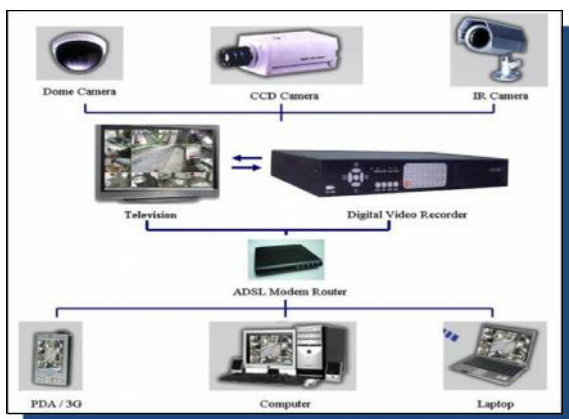

CCTV System:

Latest to our job portfolio, Sajaya provide the most up-to-date & cost effective security solutions for all your CCTV needs, with a variety of cameras & accessories from leading manufacturers.

Not only does Sajaya offer a wide variety of cameras, we offer a wide variety of all video surveillance products.

As with our cameras, we design and install every other line of our security products based on customer needs, and using the latest technology.
